Fall 2019
7th Floor Data Science

Come on up to the Seventh Floor and learn ® with other future social scientists! Two political science graduate students will be hosting weekly tutorials to get YOU (!) up and running in ®.

Topics:

- Data Manipulation/Transformation/Wrangling
- Exploratory Data Analysis
- Modeling (Linear and Otherwise)
- Bootstrapping and Statistical Simulation
- Case studies with YOUR data!

Come one, come all -- whatever your goals! Want a tenure-track position at Harvard! Done! Want that big-money analytics job in big tech? Your inbox will be FULL FULL FULL of offers by the second week! Want to understand fundamental reality like NEO in THE MATRIX? That's third-week stuff. ¡¡MONEY-BACK GUARANTEE!!

Day/Time: TBD –Tuesday, Wednesday or Thursday evening/night depending on majority availability

Begins: Second week of Fall Semester
